Liste des commandes utilisées

Pour créer le projet:

```
composer create-project --prefer-dist laravel/laravel tp2Laravel
```

Creer le models :

```
php artisan make:model Etudiant
```

```
php artisan make:model Ville
```

```
php artisan make:model Langue
```

```
php artisan make:model ForumArticle
```

```
php artisan make:model Fichier
```

Creer les controleurs:

```
php artisan make:controller EtudiantController -m Etudiant
```

```
php artisan make:controller VilleController -m Ville
```

```
php artisan make:controller CustomAuthController -m User
```

```
php artisan make:controller LocalizationController
```

```
php artisan make:controller ForumArticleController -m ForumArticle
```

```
php artisan make:controller FichierController -m Fichier
```

Creer les migrations:

```
php artisan make:migration create_etudiants_table
```

```
php artisan make:migration crate_villes_table
```

```
php artisan make:migration create_langues_table
```

```
php artisan make:migration create_forum_articles_table
```

```
php artisan make:migration ajouter_user_id_a_etudiants
```

```
php artisan make:migration create_fichiers_table
```

Executer les migrations:

```
php artisan migrate
```
